

CHAPMAN COMPUTER SCIENCE CLUB

Hello,

Are you feeling overwhelmed with final exams coming up?

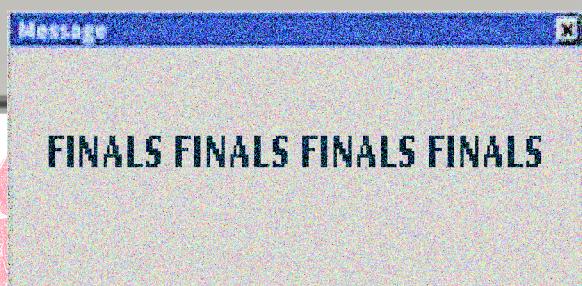

Computer Science Club would like cordially invite you
and your peers to a productive and stress free study session.

All are welcome. :)

Where : Ideation Zone N106-109

When : Friday December 9 from 3-4:30pm

Ok

```
alPolygonNumbers(){  
    delete [] mp_iNumbers;//delete the A object allocated  
    cout << "-CentralPolygonNumbers called" << endl;  
  
    ave(string Filename){  
        stream ofsNumbers;  
        sNumbers.open("savedCPNS.txt");  
        Use a for loop to iterate over the integer array  
        operator to write each number (the number of pieces)  
        r( int n=0; n<= m_nMax +1 ; n++){  
            ofsNumbers << mp_iNumbers[n]<< endl;  
        ofsNumbers.close();  
    }  
}
```
